EDUCATION

Sanjay Ghodawat University, Kolhapur, Maharashtra
Bachelor of Technology – Artificial Intelligence and Data Science (AIDS)
Expected Graduation: May 2029

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript, SQL
Frontend Development : HTML, CSS, React.js
Backend Development : Node.js, Express.js, REST APIs, FastAPI
Database & ORM: PostgreSQL, MongoDB, MySQL, Prisma ORM
AI/ML & Generative AI : NLP, LLM Integration, LangChain, Prompt Engineering, OpenCV
Developer Tools : Git, GitHub, GitLab, VS Code, Cursor
Cloud & Backend Platforms : AWS, Microsoft Azure, Firebase

PROFESSIONAL EXPERIENCE

Smart India Hackathon 2025 (Participant) **Sep 2025**

- Collaborated with a multidisciplinary team to develop SafeMiles, a proposed AI-powered solution addressing road safety challenges.
- Contributed to problem analysis, solution design, and prototype development based on real-world driving challenges.

NASA International Space Apps Challenge 2025– "Will It Rain On My Parade?" **Oct 2025**

- Developed a prototype exploring rainfall prediction and weather alerts using NASA weather and satellite data.
- Designed a user interface to communicate localized rainfall risks and potential extreme weather conditions.
- Applied data analysis and AI/ML concepts to explore weather patterns and present forecast information.

ACADEMIC PROJECTS

Developer Portfolio Website

- Built a responsive portfolio using React, JavaScript, HTML, and CSS to showcase projects and technical skills.
- Integrated GitHub project links and optimized the layout for different screen sizes.
- Live Demo: **My Portfolio**

AI Agent – Intelligent Assistant

- Engineered an AI-powered assistant using Python and LLM frameworks to process natural-language queries.
- Integrated APIs and prompt engineering techniques to generate responses and automate workflows.
- Live Demo: **AIKARE AAYA**

Krishisetu – Smart Farming

- Built a full-stack agricultural platform using React.js, Node.js, Express.js, and PostgreSQL to support farmers with crop-related information and rainfall forecasts.
- Integrated Prisma ORM, REST APIs, and a Python FastAPI microservice to support AI-powered agricultural features.
- Live Demo: **Krishisetu**

ACHIEVEMENTS

- **Smart India Hackathon 2025 –** Participated with SafeMiles, an AI-powered road safety solution, at the hackathon organized by the Ministry of Education's Innovation Cell and Sanjay Ghodawat University.
- **Project Showcase –** KrishiSetu: Developed a smart agriculture platform providing crop-related information and rainfall forecasts.
